Mr. T. Horton*

## The Building Is Really Coming Together!

As you can tell from the pictures above, the construction company is really moving along in the new school building.

The top picture with the green siding is the main entrance to the school and the administration level. The building will have another access from Keith Road, west of that entry. This level leads to the gymnasium/cafeteria.

The second picture is taken from the east on Forbes and it shows classrooms on the top and bottom floors. There will be a stairwell and a 'water feature' as the water from the roof will cascade down into a catch basin creating an eye catching display.

The third picture is from the south where we see the gym to the left, the lower green is the cafeteria while the upper green is the staff room and classrooms on top. The roof is complete now to the right, with the gym roof installed since the picture was taken.

The bottom picture shows the auxiliary multipurpose room with its peaked roof in the distance. Continued good weather will help ensure a September opening.

### Catholic Schools Week

In support of the upcoming Catholic Schools Week on February 9th to 15th, we are encouraging all of our students to wear their school uniforms to church on Saturday February 9th and Sunday February 10th.

Students wearing their uniforms will receive a ticket from the staff member attending the mass and those who are serving at the mass (after serving, reading, etc) will receive 2 tickets for a prize draw. The draw for over \$500 worth of prizes will take place at the school mass on Tuesday, February 12th.

The show of solidarity for Catholic Education exhibited by students wearing their uniforms, will go a long way in thanking the parishioners for their prayers and donations going towards making our new school building a reality.

## SAINT THOMAS AQUINAS HIGH SCHOOL'S SEVENTEENTH ANNUAL GRADE 8 SCIENCE FAIR

On Monday, January 28<sup>th</sup> the STA Science Department held its Seventeenth Annual Science Fair. Our grade 8 students spent five months working on their projects, and at last it was time to share them with the world! Parent and grade 11 and 12 student judges evaluated the projects. We were also visited by grade 7 students from St. Anthony's and St. Edmund's elementary schools. Families were invited to come and view the projects in the evening, right before the winners were announced.

The STA Science Department would like to thank our grade 8 students for making the day run so smoothly; they did an excellent job of being where they were supposed to be, when they were supposed to be there. We would also like to extend our heartfelt gratitude to our judges who volunteered their entire day to judge backboards, read lab reports and interview our grade 8 students. Sincere thanks are offered to the very kind parents and students who remained behind to help us with the labour-intensive job of putting away the tables and chairs when the science fair was over. Finally, we would like to congratulate our grade 8 Science teacher, *Mr. Lamasan*, on a job well done.

Our overall award winners were *Diego Islas* (1st place), *Sierra Larson* (2nd place) and *Lucas Radburn* (3rd place) as well as the top five projects in each of the five categories at our Science Fair (results listed below). Our three overall winners will compete at the Greater Vancouver Regional Science Fair at UBC this April 4<sup>th</sup> through 6<sup>th</sup>. We know that *Diego*, *Sierra*, and *Lucas* will represent STA well and we wish them the best of luck!

## NEWS FROM THE LIBRARY

While Christmas break and January exams are now a fading memory, the first month of the new year was all business as students prepared themselves for studying and teachers planned reviews and designed exams.

The library was a busy place as students used the space to work and review independently or study quietly as a group. Students also enjoyed perusing the new selection of fiction titles and selected favorites to begin as a break from studying.

As we prepared to celebrate the feast day of *St. Thomas Aquinas*, we looked to the “*Dumb Ox*” for inspiration before exams through this version of his famous Prayer before Study.

### Prayer Before Study

*Creator of all things, true source of light and wisdom, lofty origin of all being, graciously let a ray of your brilliance penetrate into the darkness of my understanding and take from me the double darkness in which I have been born, an obscurity of both sin and ignorance. Give me a sharp sense of understanding, a retentive memory, and the ability to grasp things correctly and fundamentally.*

*Grant me the talent of being exact in my explanations, and the ability to express myself with thoroughness and charm. Point out the beginning, direct the progress, and help in completion; through Christ our Lord. Amen.*

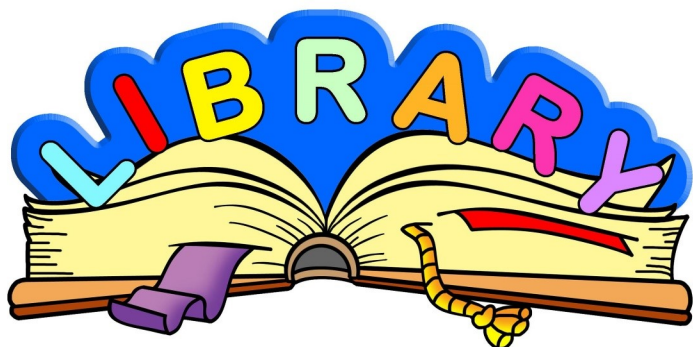

**NEW IN THE LIBRARY:** suggestions for younger, perhaps reluctant and not so reluctant readers.

*The Brilliant World of Tom Gates*  
by Liz Pichon

Meet Tom Gates a master of excuses, an expert doodler, a comic story writer extraordinaire, and the bane of his teacher's existence! In this recent recipient of the 2011 Roald Dahl Funny Prize, readers will find an honest, silly and laugh-out-loud book in the format of Tom's battered homework diary, crammed full of his scribbles and stories. And in his wacky journal, you'll find all sorts of comic craziness to make you groan with glee! Hear about Tom's worst holiday ever, and the time his parents went to parents' evening, groan. Tom's battered homework diary is crammed with his scribbles and stories, cartoons and ideas as well as comments from the long-suffering Mr. Fullerman. Warning! Do not attempt to read this in public. You will laugh loudly.

*The Tiny Hero of Ferny Creek Library*  
by Linda Bailey

Eddie, a passionate reader and a shiny green bug, saves the school library in this funny, heartwarming tale that fans of *Flora & Ulysses* and *Charlotte's Web* will love. Eddie is a tiny green bug who loves to read and who lives behind the chalkboard in Mr. Wang's fourth grade classroom with his parents, his 53 brothers and sisters, and his Aunt Min. But when Aunt Min goes to the school library and never returns, Eddie leaves the comfort of his home for the first time and begins the dangerous trek through the elementary school. After dodging running sneakers, falling books, and terrifying spiders, Eddie reaches the library, where he finds Aunt Min stuck on a desk with two broken legs! To top it all off, there's a substitute librarian who has terrible plans to close the library and turn it into a local testing center. No more books at all! Encouraged by the brave deeds done by small creatures like Stuart Little and Charlotte from *Charlotte's Web*, Eddie comes up with a plan to save the library a plan that requires all the courage one little bug can muster. Perfect for fans of *Chris Grabenstein's Escape from Mr. Lemoncello's Library* and *Lynne Rae Perkins' Nuts to You*. Featuring extensive black and white art from Newbery Honor Medalist and New York Times bestseller *Victoria Jamieson* as well as references to classic children's literature sprinkled throughout.
